See your light
See your face
To run away
To run away

When you got her name
When you go flame
That's some easy
That's tricky

See your light
See your face
To run away
To run away

That's some new
That's some terrible
That's some some trouble
That's some low

Her name is Katty
Her name it's so tricky
Her name is badly
I do not say anything about this girl

See your light
See your face
To run away
To run away

This girl
Go away
Don't call me
I am busy
